Hi Ben,

EPA needs a bit more specificity in order to determine if I, management, or media relations are the most appropriate staff to respond. Several other commitments would require me to put this interview off until October 11 or 13th. If others should respond, I will check their schedules and we will coordinate an interview.

Thanks for your cooperation.

Sincerely,

Sabrina Forrest

Subject: Possible Superfund at Gladstone

We usually don't write out questions, that way soundbites are more conversational. But essentially I'd like to know EPA's view of the Gladstone area, what EPA can offer to help cleanup, and thoughts

on resistance from some in the community. Interviews usually take about 20 minutes, they're recorded, and much easier and less gotcha than most people realize.

Ben Markus
